

Most people are familiar with traditional grinding methods of removing trip hazards.

WHAT'S WRONG W/ GRINDING?

- Damages Concrete
- Causes an Unsightly Appearance
- Doesn't Comply with the Americans With Disabilities Act (ADA)

We Do Not Grind Your Sidewalks.

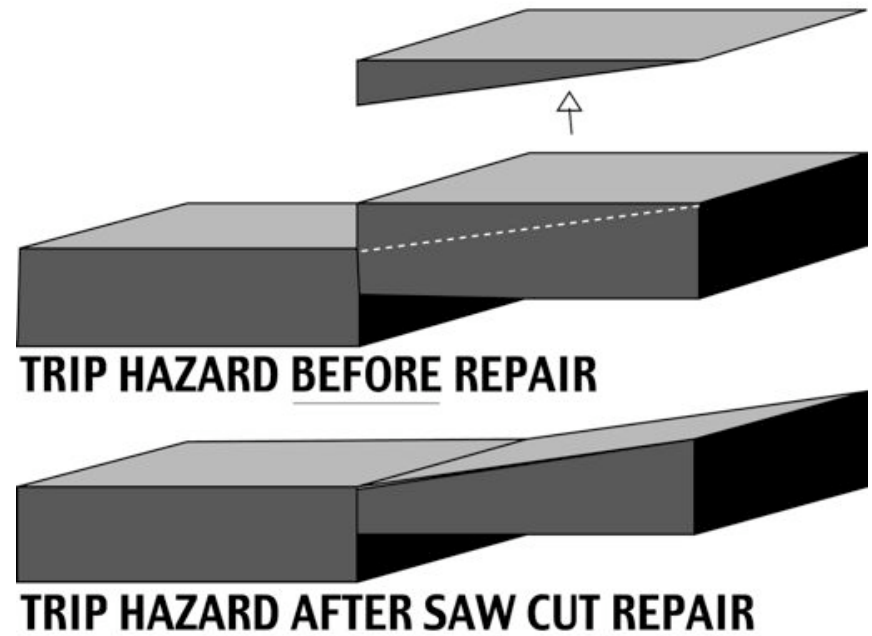

OUR PATENTED CUTTING PROCESS....

- Will Not Damage the Concrete.
- Leaves a Smooth Desirable Appearance
- Will Comply with the Americans With Disabilities Act (ADA) Requirements or Your Specifications

What exactly do we do?

- Provide a solution that is significantly less expensive than removal and replacement
- We only charge for the concrete we remove
- ADA slope, zero point of differential between slabs or crack, to both sides of the sidewalk, uniform texture...everything you could ask for!

Our Patented System Is Fast & Effective!

- We can correct over 100+ trip hazards per day
- Our process allows us to correct difficult trip hazards
- We provide a comprehensive written assessment (size, location, and cost)
- No need to close off the street or sidewalk

Before and After Pictures of a one inch trip hazard.
